For Immediate Release:

### **Vectra Adds Lamina System**

Marketing Services by Vectra (Vectra) has installed a new Lamina sheet to sheet laminating/mounting system, Craig Taylor, founder and president has announced.

Vectra is a provider of marketing services including: commercial printing; bindery operations; fulfillment; direct mail, inventory and data base management; and premiums and promotions. Vectra has been providing marketing services to some of America's best known brands for over 25 years.

The Lamina laminating/mounting system will complement Vectra's large, small and grand format digital and offset printing operations.

In addition to the digital and offset capabilities Vectra also offers screen, web and photographic printing services.

Vectra is able to perform all elements of production from job order through distribution and inventory management from its 225,000 sq.ft. facility located in Columbus, Ohio.
